These starter kits have been designed to provide maximum comfort and effective respiratory protection against organic vapours/solvents and particles during spraying, mixing, cleaning and welding applications.

This half face respirator was designed with the wearer in mind. Its soft sealing surface, along with a uniquely designed 3M Cool Flow exhalation valve enhances wearer comfort. It is made from durable silicon and can be used with any 3M Filters and cartridges, Series 2000, 5000 & 6000.
